Memorial Service November 13

A Letter from the Chancellor

Dear Friends and Colleagues,

By the time you read this it will have been three weeks since the earthquake struck the San Francisco Bay Area with such devastating personal losses for so many of our friends and colleagues.

Like many others, I rushed back to campus from the ballgame. As I stood in the Admitting department observing the Disaster Center as it moved into operation, I was struck by the spontaneous and compassionate response of so many of our people. Nurses, students, physicians and staff of all job descriptions (many with no patient care experience) kept coming to the door asking if they could help.

Some said they had just gone home but turned around and came back. The Medical Sciences lobby was full of people who stayed hours just in case they might be needed.

There were too many people for me to single out any one individual and, besides, it was the way they worked as a team that made it wonderful to behold. But three of the groups who did an outstanding job were the people from EH&S, Physical Plant and the Police Department, who went through the buildings, floor by floor, until three in the morning, assessing the damage and marking the areas safe for entry. Some took me around personally to show the extent of the damage. I was amazed at how little we had suffered.

When I left at midnight there were people still present helping the injured and frightened, pulling up a cot to sleep on at 3 a.m., so they could get up the next morning to do what ever might be needed.

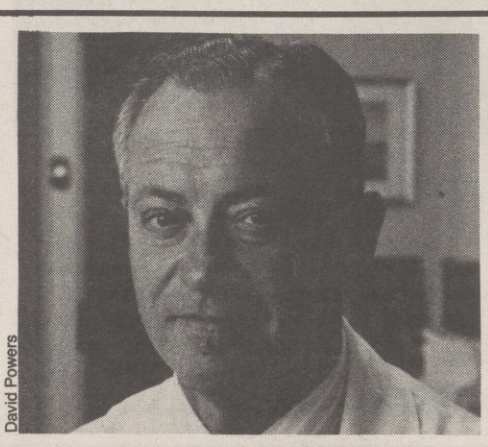
The hospital had back-up emergency power for patient care areas almost immediately, but the campus did not. It was largely due to the efforts of Physical Plant and EH&S that there was no loss on the rest of the campus of any of our research materials and animals, representing years of work, that could have been destroyed by lack of ventilation or refrigeration.

It was their reassurance, after checking the structure of every building, that made the next few days liveable, as the campus began to pull itself together.

We are all relieved to find that all our buildings are structurally safe and that there were no injuries nor health-related ill effects suffered by any of our patients or staff on campus. Nevertheless, some of the EH&S rules for securing cabinets, shelves and tanks will have to be observed more tightly, and the campus as a whole needs to have the kind of periodic drills the hospital holds annually.

I want to assure you that we are going to do everything possible to improve our disaster preparation and planning at UCSF. On this campus, when we lose power we not only lose light, we lose refrigeration, we lose ventilation. We must have a full back-up emergency power system and full integration of our campus and hospital disaster planning.

While the earthquake was hard to take, the next morning was the hardest time of all,



David Powers

when we discovered the loss of one of our van pools and what had happened to eight young women, friends and colleagues of many of us—five of whom were dead and three more critically injured. Plus one employee's wife, who was killed at Sixth and Bluxome. The entire campus has been saddened by this loss.

We will be holding a memorial service on Monday, November 13, at 3 p.m. in Cole Hall.

Families are brought together by events of joy or sorrow. The campus family has in a short period of time shared our 125th birthday, two Nobel prizes, the earthquake and the tragic loss of our staff. We have worked together in the past. We worked together on October 17. We will work together in the future.

Thank you.

Julius Krevans

Memorial Funds

Below is the latest information we have on the memorial funds being set up for our five friends and colleagues who lost their lives during the recent earthquake:

- Yuk Lin Lau, wife of senior custodian John Lau. Make contributions to: Yuk Lin Lau Children's Fund, and send to the Department of Building Services, Box 0618, Attn: Diane K. McGee. For further information call x61695.
- Rae Beauregard-Sund: Contributions should be sent to: American Red Cross, Earthquake Disaster, "Heart of the Bay," PO Box 26555, San Francisco, CA 94126.
- Lanna Lee: Checks should be made payable to Lanna Lee Children's Fund and sent to the Department of Radiology, Box 0628, Attn: Lee Gately. For further information call Lee at x62411.
- Donna Marsden: Send donations to: STARCROSS, Donna Marsden Memorial, PO Box 14279, Santa Rosa, CA 95402.
- Delores Stewart: Make contributions to: American Red Cross, Earthquake Disaster, "Heart of the Bay," PO Box 26555, San Francisco, CA 94126.

The three other UCSF employees who were in the van when the Interstate 880 accident occurred still are hospitalized. Hematology's Meg Fitzpatrick remains in critical condition, but now is out of a coma, in Eden Hospital in Castro Valley. Nursing Education's Cathy Scarpa also is in Eden in stable condition. Staff research associate Judy Jester from Mike Harrison's laboratory is in stable condition with orthopedic injuries in Oakland's Kaiser Hospital.

New Child Protection Center Named for Moses Grossman

Most child and teenage victims of sexual abuse in San Francisco don't know the name of the kindly pediatrician who has fought for their rights over the last two decades.

His name is Moses Grossman, chief of pediatrics at SFGH. In his honor a new center has been named: The Moses Grossman Child Protection Center, located at SFGH.

A pioneer in child abuse treatment, Grossman has served as chief of pediatrics for the past 38 years and vice chair of the department since 1970. He helped found the San Francisco Child Abuse Council in 1973 and served as its president from 1974 to 1977. He and Delmar Pascoe, assistant chief of pediatrics at SFGH at that time, joined forces to improve the city's Child and Adolescent Sexual Abuse Resource Center, a program that, as Grossman recalls, made no distinction between adult and child victims during treatment. "We moved the medical part of the program to SFGH from a downtown location," he explains, "to ensure that the children were examined properly and sensitively."

For the past five years, Grossman has advocated such a child protection center in San Francisco that would improve and centralize medical, counseling, and referral services for the more than 200 children taken into protective custody each month and their families.

Open 24 hours a day, the new center also offers bathing, feeding and emergency overnight shelter, if needed, to abused and neglected children. The center is located in Building 80 close to both the newborn nursery and the round-the-clock Pediatric Emergency Care Clinic.

Mikkel Aaland

At the new center's dedication: Moses Grossman holds four-year-old Nayan Robles-Pegueros, daughter of child welfare worker Hilda Pegueros.

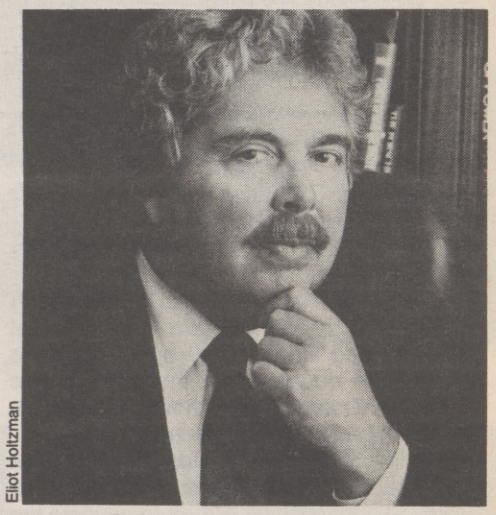
President Bush Awards National Medal of Technology to Boyer, Cohen

UCSF's Herbert W. Boyer and Stanford's Stanley N. Cohen, the "fathers of genetic engineering," were awarded the National Medal of Technology from President George Bush in a ceremony in the East Room of the White House on October 18.

Boyer and Cohen were cited "for their fundamental invention of gene splicing and techniques, which allowed replication in quantity of biomedically important new products, and beneficially transformed plant materials."

The discovery of gene splicing technology, also called recombinant DNA, revolutionized basic biological research around the world, and has changed the face of biotechnology in this country. Boyer, UCSF professor of biochemistry, and Cohen, professor of medicine at Stanford, first demonstrated the techniques of gene splicing in 1973, when they took genetic material from bacteria, recombined it with foreign genes, and introduced the "recombinant DNA" into other bacteria as hybrid chromosomes.

In 1976 Boyer joined venture capitalist Robert Swanson to found Genentech, Inc., to bring the fruits of this revolutionary development to the marketplace.



Elliot Holtzman

Herbert Boyer

The medal is awarded annually by the President of the US to recognize individuals or companies that have made exceptional contributions to the well-being of the nation through the development or application of technology.

United Way Campaign Begins Nov. 6 . . . What if Everybody Gave?

All kinds of events are happening on campus to launch this year's UCSF United Way Campaign, which runs from November 6 to 17. Besides individual departments and divisions hosting raffle parties and the like, each of the four schools has something big planned, as well as LPPI. Don't miss out on the fun, and the chance of winning a prize! Be sure to contact your individual unit or school to see what's up. Wondering what the Med Center has going down? See page 8 for details of their special fairs, plus much more.

The UCSF/United Way Campaign carries more significance this year, explains William K. Hamilton, vice dean of the School of Medicine, who chairs the 1989 campaign. This year we celebrate our 125th Anniversary, and one of our themes is UCSF's role in the community. "If we say we're part of the community and helping the community, we should act it," says Hamilton. "Contributing to United Way is an opportunity to aid those in the community who are not so fortunate.

"In many ways, United Way's role is similar to UCSF's mission to improve the health of the community," says Hamilton. When a problem emerges in the community, United Way is quick to make repairs. In 1987, for example, United Way established the Bay Area AIDS Crisis Fund. And when the homeless rate in the Bay Area increased 25 percent, United Way allocated $6.4 million to more than 25 programs providing emergency food, shelter, counseling and job training for homeless people.

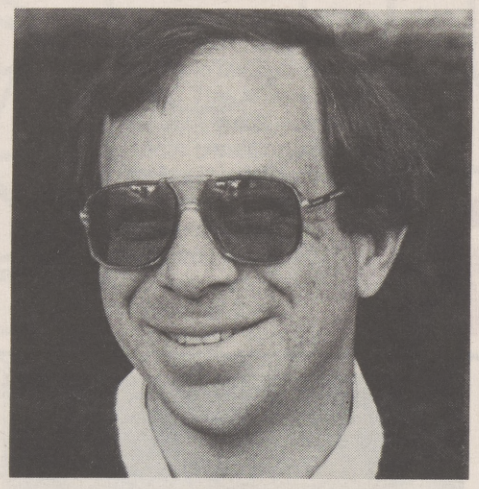
(continued on page 2)

Gazette

Honors & Awards

David Powers

George L. Kenyon, professor & chair, pharmaceutical chemistry: Winner of a Fellowship from the New York Academy of Sciences recognizing outstanding scientific achievements or promotion of science.



George Fein, associate professor, psychiatry; director, Developmental Neuropsychology Lab, VAMC: Received an award for outstanding contributions to the advancement of psychology from The City College of New York psychology department, at their 50th Anniversary Conference/Celebration.

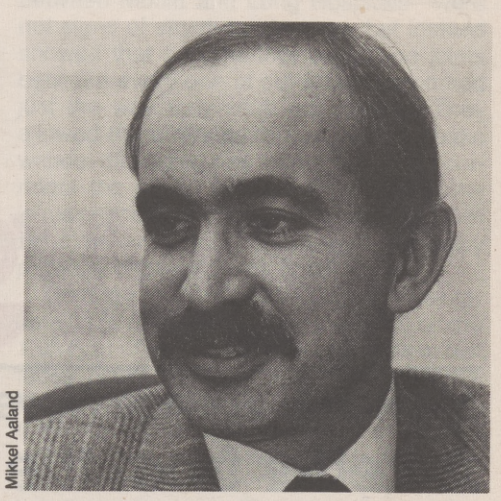
Three New Hughes Doctoral Fellows

Graduate students Vivian W.F. Chan, Robert K. Cerpa and James E. Mace (left to right) have been awarded Doctoral Fellowships in the Biological Sciences from the Howard Hughes Medical Institute. The fellowships give up to five years of support for study toward a PhD or ScD in the biological sciences, and include a $12,300 annual stipend for the student and a $10,700 annual allowance to the fellowship institution. Chan is working toward a degree in biochemistry, Cerpa in biophysics and Mace in structural biology.

Appointments

Mikkel Aaland

Jane Lipscomb, director, Occupational Health Nursing Program. One of the first nurses to receive her doctorate in epidemiology through the Northern California Occupational Health Center, she became interested in occupational health as an assembly line worker in high school. She received her BS in nursing from Boston College and her Master's in occupational health nursing from a joint Boston University/Harvard School of Public Health program. Libscomb's research will build on her PhD work, which evaluated health problems linked to community exposure to hazardous waste sites. Her study at UC Berkeley is supported by a research assistantship from the UC Toxic Substances Research and Teaching Program.



Mikkel Aaland

Thomas E. Kearney, managing director, San Francisco Bay Area Regional Poison Control Center, SFGH. A 1980 School of Pharmacy graduate, Kearney completed his hospital pharmacy residency at University of Michigan followed by a fellowship at San Diego Regional Poison Control Center. He directed the Louisiana State Poison Control Center in Shreveport from 1983-1985, and most recently served as executive director, Delaware Valley Regional Poison Control Program at Children's Hospital, Philadelphia.

Deborah Rochelle-Williams, coordinator, Rape Prevention Education Program. She has worked with the Women's Resource Center for the past two years as a consultant for groups of women who have been victimized emotionally, physically and/or sexually as children or adults. Bilingual in Spanish and English, Rochelle-Williams is a licensed clinical social worker who graduated from UCB in 1980 with a Master's in Community Mental Health and Social Welfare. She is the second woman of color, and the first black woman ever, to hold this position in the UC System. She replaces Leslie Simon, who is pursuing a Master's in English at UCB.

Publications

John Mills, professor, medicine; chair, infectious diseases, SFGH; **Gifford Leoung,** assistant clinical professor, medicine; infectious disease researcher, divisions of AIDS activities & infectious diseases, SFGH: Co-authors, *Opportunistic Infections in Patients with the Acquired Immunodeficiency Syndrome* (Marcel Dekker, New York City, 1989.)

Charles E. Becker, professor, medicine; director, Northern CA Occupational Medicine Center, SFGH: Editor, *Occupational HIV Infection: Risks & Risk Reduction* (Hanley & Belfus, Phila., 1989).

In Memoriam

Stephen A. Downs, principle clerk, ACC, Adult Immunodeficiencies Clinic. An employee since 1987, Downs reorganized the clinic's front office to run more efficiently, and volunteered his assistance to help patients with medical insurance problems. A memorial get-together is planned. For more information call Susan Stringari at x63226.

SEP's Annual Reception Nov. 20

The Science Education Partnership (SEP) will hold its annual reception on Monday, November 20, at 4:15 p.m. in the Millberry Union lounges.

Faculty, staff and students interested in working with middle and high school teachers and students to improve science and health education in the city's public schools will have an opportunity to meet with teachers participating in the program.

The two-year-old SEP has expanded this year to add a new health education program, which will help bolster efforts to educate the city's students about such health dangers as drug abuse and AIDS.

SEP is directed by Stanton Glantz, professor of medicine. The program is overseen by an advisory committee chaired by Bruce Alberts, who started SEP. Other committee members are School of Medicine's Lloyd H. Smith, Senior Vice Chancellor David J. Ramsay, Family & Community Medicine's David Sanchez, and Assistant Vice Chancellor Keith Wilson. Staff coordinators are David States, JoAnne Miller and Art Sussman.

SEP has opened a new office at LS 101. Members of the campus interested in participating in the program, either working with teachers and students, giving occasional lectures, or donating equipment and resources, should call the SEP office at x60300, Box 0905.

United Way *(continued)*

Employees will receive information and pledge envelopes from representatives in their departments, and they will be asked to make their donations or pledges during this period.

Again at UCSF, increasing participation is the emphasis of the campaign. Last year, 40 percent of campus employees contributed to United Way, however, Hamilton hopes to see an increase in that figure.

The United Way slogan this year is "What if everybody gave?" Citizens are asked to ponder this and consider how a contribution, even small, could go a long way in meeting the needs of a great number of people.

The UCSF campaign again will make donating easy. Employees may designate their donations to the United Way agency of their choice, or they may choose any tax-exempt health or human care service agency in California. Employees may also choose to make their contributions through convenient payroll deductions.

Because of our recent earthquake, the United Way has set up a special emergency Northern California Disaster Relief Fund. This is for immediate cash and credit card contributions only, and is not part of the United Way annual campaign. The fund will assist the American Red Cross, the Salvation Army, Open Hand and other disaster relief agencies. If you are interested in making an additional contribution to this special fund, call 1-900-505-FUND.

Concert for Earthquake Relief

Two UCSF composers—Pathology's Elaine Bearer and Physiological Nursing's J.J. Hollingsworth—will have their original works featured at a special concert to benefit San Francisco's earthquake victims.

The concert, called "Vibrant Music by Living Americans," will be held on Friday, November 10, beginning at 8 p.m. at the McBean Theatre in the Exploratorium, Marina Boulevard and Lyon. Tickets are $6 general, $4 students and seniors. All works will be performed by the Sierra String Quartet.

Other composers featured that evening will be Noah Agruss, Ron Caviani, Michael Ross Knapp and Felicia Sandler. All six of the composers are members of a Bay Area consortium called New Release. The November 10 event is part of American Music Week, November 6-12, presented by the American Music Center.

Support for AIDS Research

Funds now are available from the UCSF AIDS Clinical Research Center for researchers to begin AIDS pilot studies. Deadline for the next submission of applications is Thursday, November 30. For further information contact Director John L. Ziegler, VAMC, Room 141A, or call 750-6923.

CA Policy Seminars

The California Policy Seminar is seeking proposals from UC faculty to investigate policy issues relevant to the state. Grant decisions will be made next spring. Deadline for receipt of propsals is Friday, December 1, however, proposals must be submitted to the campus Office of Research Affairs, Box 0962, by mid-November. For further information call x62977 or the CA Policy Seminar at 642-5514. Guidelines and application forms are available from the Office of Research Affairs, Laurel Heights, Suite 11.

UCSF *Newsbreak*

UCSF (ISSN0891-6063) Volume 4, Number 19, November 4-24, 1989. Published by the University of California, Third and Parnassus, San Francisco, CA, 22 issues per year—biweekly, except monthly June, July, August and December. Second-class postage paid at San Francisco, CA. Postmaster send address changes to *UCSF Newsbreak*, News & Public Information Services, University of California, San Francisco, 513 Parnassus, Room S 20, San Francisco 94143-0462.

Deadline for the next issue, which will cover November 25-December 15 (three weeks) will be on Thursday, November 9, at 11 a.m. Please send campus news copy to Allen Balderson, Medical Center news to Dawn Finch, and calendar and gazette items to Michele Firpo, all at Box 0462. Last-minute copy can be taken over the telephone by calling x61541 or x62557.

The 125th Photo Album

To say October was quite a month would be an understatement. At the beginning of those 31 days UCSF's first Nobel Prize winners—Harold Varmus and Mike Bishop—were announced. Then the World Series began involving for the first time ever two Bay Area teams. Mid-October saw our 125th Birthday Bash, followed only three days later by a devastating earthquake.

While it seems as though years have gone by since we celebrated UCSF's birthday on October 14, it was indeed just a few weeks ago. While the weather was less than desirable, it still brought some 8,000 people to our campus to take part in tons of activities, from a giant health fair to Dwight Clark, Betty Boop cartoons to Pride and Joy, *very* popular research tours to gourmet food.

What follows are a few pictures (never before published!!!) which, if you were there, will bring back fond memories, and if you weren't around, will give you a glimpse of what it was like.

Today/Tomorrow

4 Saturday

ANESTHESIA MORBIDITY & MORTALITY CONFERENCE. HSW 301. 8-10 a.m.

ORTHOPEDIC SURGERY GRAND ROUNDS. Herbst Hall, Mount Zion Hosp. 8-9 a.m.

SURGERY GRAND ROUNDS: *Breast Reconstruction: Current Concepts.* Stephen Mathes, Surg. & Plast. Surg. Followed by M&M conference. Toland Hall. 8:30 a.m.

LOW VISION FORUM: Counselor Bea Tracy discusses how to help yourself & friends cope with problems, & how to know when professional therapy is required. A series of forums sponsored by Ophthalmology, held on the first and third Saturdays of each month. For further information call Frances Neer, 626-5313. Clinical Eye Research Bldg., 374 Parnassus. 11 a.m.-1 p.m.*

6 Monday

BREAST CANCER SCREENING SCHEDULE

Women can have low-cost mammograms—x-rays to screen for breast cancer—from a mobile van that travels to convenient locations in the Bay Area.

Women need the approval of their physicians to have the mammogram. The procedure takes approximately 20 minutes and costs only $50. To make an appointment call 990-0459 or x62193 between 9 a.m. and 3:30 p.m.

The van will be at the following locations for the next three weeks:

- Nov. 6-7: Palo Alto Jewish Community Center, at 655 Arastradero Rd.
- Nov. 8-9: Palo Alto Senior Center, at 450 Bryant St.
- Nov. 10: Los Altos Senior Center, at 97 Hill View Ave.
- Nov. 13-16: Taraval between 17th & 18th Aves.
- Nov. 17: PG&E in Belmont. Call Allison for an appointment at 598-7325.
- Nov. 20-22: Union Bank, 350 California St. between Battery & Sansome.

OTOLARYNGOLOGY GRAND ROUNDS: *Computerized Nerve Monitoring.* Barry Schaitkin, Penn State Neurotology Fellowship applicant. *Semi-Implantable Hearing Aids.* Franklin Rizer, private practice, Ohio. S 214. 8-10 a.m.

OVEREATERS ANONYMOUS MEETING: *The "H.O.W." Concept.* A more structured approach to over-eating. Speaker & discussion. N 417. Noon. Call Lia, x62542.*

OVEREATERS ANONYMOUS MEETING: Regular OA meeting. N 717. Noon.*

ANATOMY SEMINAR: *Axonal Growth & Synaptic Regeneration in the Adult Central Nervous System. Evidence from Neuronal Transplantation Studies.* Marc Peschanski, Neurophysiology, INSERM 161, Paris. HSE 1309. Noon.

DERMATOPHARMACY SEMINAR: *Pharmacokinetics of Percutaneous Absorption of a Beta Blocker, Timolol.* Kiyosi Kubota, Derm., Clin. Pharm., Nat. Med. Center, Japan. S 940. 12:10-1 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *Predictive Value of the Bleeding Time: Applying New Tools to an Old Test.* Richard P. Rodgers, Pharm. Chem. L 535. 4-4:50 p.m.

CVRI SEMINAR: *Developmental Mechanisms of Vascular Biology.* Stephen M. Schwartz, Path., U Wash. S 1364. 4-5:30 p.m.

URORADIOLOGY CONFERENCE: Richard Schmidt & Hedvig Hricak, both Uro. M 460. 5-6 p.m.

HEALING YOUR FINANCES/FOLLOW-UP WORKSHOP: *Creativity & Success.* Learn specific & practical tools for overcoming self-imposed barriers. Sausalito psychotherapist Ruth Ross. $20. N 717B. 7-10 p.m.*

7 Tuesday

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Surgical Repair of Cleft Lip & Palate.* Douglas K. Ousterhout, Surg. C 701. 8 a.m.

SFGH PEDIATRIC GRAND ROUNDS: *Psychiatric Emergencies.* Martin Glasser, Ped. Carr Aud., SFGH. 8-10 a.m.

TRANSFUSION RESEARCH FORUM: *Laboratory Diagnosis of HTLV-I/II.* Dana Gallo, Hlth. Serv. Lab. L 535. 8:30 a.m.

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

NATIONAL GLOBAL WARMING AWARENESS

- Nov. 7: Union of Concerned Scientists & Rain Forest Action Network: Slide presentation on the world's endangered rain forests and their critical place in the global ecology. HSW 302. Noon.
- Nov. 8: Union of Concerned Scientists presents PBS Nova film, "Hot Enough For You?" on the greenhouse effect and global warming: Causes, predictions, solutions. HSW 302. Noon.
- Nov. 9: *The Global Climate Crisis & Our Common Future.* Bill Prescott, Climate Protection Institute. HSW 302. Noon.
- Nov. 10: *Can Polar Bears Tread Water?* Video examines global warming, glacial melting & consequences. Discussion. HSW 302. Noon.

For further details call Kathleen Ramos at x61741 or Amir Attaran at x63937.

SFGH GI MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *The Role of GAP in Signal Transduction from ras & Tyrosine Kinase Oncogenes.* Frank McCormick, Mol. Bio., Cetus Corp. HSW 301. 4 p.m.

NEUROLOGY GRAND ROUNDS: *Ethanol Calcium Channels & Protein Kinase.* Robert Messing, Neuro. S 664. 5-6 p.m.

CHAMBER MUSIC

Guarneri String Quartet. Music & humorous insights into their 24 years of playing together. Cole Hall. 5:30 p.m. Call x62035 for ticket information.*

8 Wednesday

PLASTIC SURGERY GRAND ROUNDS: *Septocutaneous Vessels as the Basis for Fasciocutaneous Flap Design in the Limbs.* Carlos E. Carriquiry, Plast. Surg., Montevideo, Uruguay. Toland Hall. 7 a.m.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call coordinator Barbara Blakely, x61662.

DERMATOLOGY CONFERENCE: *HPV in Dermatology.* Carl Buetner, Derm. HSW 301. 8-9 a.m.

ENDOCRINE GRAND ROUNDS: *A New Tumor-Secreted Hormone Responsible for Hypercalcemia of Malignancy.* Michael Rosenblatt, Merck Sharp & Dohme Research Labs, West Point. M 1486. 8:30 a.m.

BROWN BAG LECTURE SERIES: *Scientific Study of the Unconscious.* Bram M. Fridhandler, LPPI. HSW 300. Noon-1 p.m. Call x64394.*

OPEN ENROLLMENT MEETING: CED Hartsook Room. Noon-1:30 p.m. (See story on page 6.)

ANATOMY SEMINAR: *A Novel Pathway for Protein Export in Eukaryotic Cells.* Jeremy Thorner, Biochem., UCB. S 1364. Noon.

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

125th EVENT: ETHICS & ECONOMICS OF DEATH

UCSF hosts Hastings Center's 20th Anniversary Bioethics Conference *'Til the Money Runs Out": The Ethics & Economics of Death.* Co-sponsored by CMA & CA Nurses Assn. Cole Hall. 1-5:15 p.m. Reception to follow. Mezzanine, Sch. of Nurs. 5:30-6:30 p.m. For information call x69046.

- *Health Care & the Good Society: The Goals & Limits of Medical Progress.* Daniel Callahan, Dir., Hastings Center.
- *Feeding the Dying: A Dilemma for Nursing.* Anne J. Davis, Nurs.
- *Fighting Death & Other Final Chapters: The Price of Our Stories.* Judith Wilson Ross, Med. Ethics, UCLA.
- *The Definition of Medically "Futile" Treatment: Economic Implications.* Thomas J. Scully, Bioethics, U Nev. Schl. Med.
- *Mercy, Murder & Mortality: Perspectives on Euthanasia.* Susan M. Wolf, Hastings Center.

PSYCHIATRY GRAND ROUNDS: *Multiple Personality Disorder: Assessment & Treatment—Part 1.* Seymour Boorstein, Psychr.; Susan Detrick & Douglas Detrick, both Psychr., Stanford. LPPI Aud. 1-2 p.m.

JOINT UCSF/UCB BIOENGINEERING SEMINAR: *X-Ray Microscopy for the Life & Physical Sciences.* David T. Attwood, Physics, UCB. C 309A. 1-2 p.m.

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

SFGH GI MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

OPERATIVE UROLOGY CONFERENCE: *Bladder Substitutes.* Peter Carroll, Uro. M 460. 5-6 p.m.

PATHOLOGY GRAND ROUNDS: *Renal Pathology II.* Claud Biava, Path. & Pharm. HSW 508. 5:30-6:30 p.m.

EARTHQUAKE TRAUMA COUNSELING

UCSF psychiatrist Daniel Weiss, a post-traumatic stress expert, discusses psychological effects of the quake. Question & answer period follows presentation. For more information call x67307 or x67000. Additional session on Wed., Nov. 15. LPPI Aud. 6-7:30 p.m. Telephone counseling is available at x62215 or x67430.*

MOUNT ZION EIR PUBLIC HEARING

A formal public hearing on the Environmental Impact Report on UCSF/Mount Zion Hospital & Medical Center integration. UCSF-Laurel Heights Aud., 3333 California St. 6-10 p.m.*

SAN FRANCISCO HISTORY CLASS: *SF from the 18th Century to the Present.* Free weekly classes by historian Charles Fracchia, sponsored by SF Historical Society. Through Dec. 13. Toland Hall. 7:30-9:30 p.m. Call 567-2725 for further information.*

9 Thursday

OPEN ENROLLMENT MEETING. Oyster Point. Two morning meetings. (See story on page 6.)

MEDICINE GRAND ROUNDS: *Amiodarone & Thyroid Function: Clinical & Molecular Aspects.* Francis S. Greenspan, Med. & Radio., Thomas N. Lavin, Metab. Res. Toland Hall. 8 a.m.

SFGH NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

PEDIATRICS GRAND ROUNDS: *New Lasers for the Treatment of Vascular Birthmarks.* Ilona Frieden, Derm. & Ped., Kaiser Oakland. S 664. 8:30-9:30 a.m.

OPHTHALMOLOGY GRAND ROUNDS: *Neovascularization: Basic Insights & Molecular Biology.* Lewis T. Williams, Med. Preceded by case presentations: *External Disease.* S 214. 8:30-10 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Times Beach, Missouri: A Case History of Dioxin Contamination.* F. Jay Murray, Env. Hlth. & Safety, Syntex. SFGH Bldg. 30, 5th fl. 9:15-10:45 a.m.

FAMILY & COMMUNITY MEDICINE/PRIMARY CARE LECTURE SERIES: *Low Back Pain & Joint Exam.* Nancy Byl, Phys. Therapy. A 455. 10-11 a.m.

PEDIATRIC TUMOR BOARD. L 34. 11 a.m.-12:15 p.m.

ORAL BIOLOGY 220 SEMINAR: *Wound Healing & Growth.* Michael Banda, Radiobio. & Env. Hlth. & Radio. S 664. Noon-1 p.m

MOTHER TO DAUGHTER

BAY AREA WOMEN WRITERS SERIES: Prize winning American novelist Tillie Olsen reads from her novels & short stories, including her newest book, *Mother to Daughter, Daughter to Mother.* Sponsored by UCSF Women's Resource Center. Toland Hall. Noon.* CANCELLED

GERIATRIC GRAND ROUNDS: *Ethical Issues in Clinical Practice.* Joseph C. Barbaccia, Fam. & Comm. Med. Herbst Hall, Mount Zion. Noon-1 p.m.

NEURO-ONCOLOGY TUMOR BOARD. L 34. 1:30 p.m.

CLINICAL ONCOLOGY CONFERENCE. M 1296. 2 p.m.

OPHTHALMOLOGY/PROCTOR RESEARCH SEMINARS: *Immune Protection in Chlamydial Infections.* Judith Allen, Chlamydia Lab. S 318. 3 p.m.

CRI HEMATOLOGY/ONCOLOGY GRAND ROUNDS: Lois Van Der Hagen, Hem/Onc. M 1296. 3 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

ORTHOPEDIC SURGERY STAFF CONFERENCE. A 630. 4-5 p.m.

PRIMARY CARE GRAND ROUNDS: *Antiplatelet Therapy.* Marc Shuman, Med. & CRI. A 455. 4:30 p.m.

RADIATION ONCOLOGY GRAND ROUNDS: *Precision Fractionated Radiotherapy of Intracranial Targets Using Proton Beams.* Lynn Verhey, Rad. Med., Mass. Gen. Hosp. L 34. 5 p.m.

RADIOLOGY GRAND ROUNDS: *Parathyroid Imaging: Multimodality Comparison.* David Price, Radiol. & Nuc. Med. HSW 303. 5:15-6:15 p.m.

***Open to the public.**

COLE HALL CINEMA: *Field of Dreams.* Children under 14 $2; UCSF employees (today only), students, seniors & MU members $2.50; general $3. Cole Hall. 5:45 & 8 p.m.*

ALCOHOLICS ANONYMOUS MEETING: All are invited. LPPI A 222. 6 p.m.*

COMMUNITY HEALTH TALK: *Current Management of Low Back Pain: When Physical Therapy & Exercise Is Not Enough.* James M. Morris, Orthosurg. UCSF Laurel Heights. 7-8:30 p.m. Free parking available.*

10 Friday

SFGH MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H4, SFGH. 7-7:30 a.m.

SFGH NUCLEAR MEDICINE/RADIOLOGY CONFERENCE. Rm. 1X58, SFGH. 7:45-9 a.m.

OTOLARYNGOLOGY GRAND ROUNDS: *Hypopharyngeal Squamous Cell Carcinoma.* Peter Martin, Oto., Naval Reg. Med. Center, Oklnd. Plus Grand Rounds from Naval Reg. Med. Center. S 214. 8-10 a.m.

CHILD & ADOLESCENT PSYCHIATRY CONFERENCE: *Differential Diagnosis & Treatment Planning in a Three-Year Old Adopted Girl with Signs & Symptoms of Developmental Delay & with Parental Instability.* Allison Hall & Bryna Siegel, both Child & Adol. Psychr. LPPI Aud. 10:10-11:30 a.m.

PHARMACEUTICAL CHEMISTRY 221 SEMINAR: *Microfolding: Computer Simulation Studies of Peptide Conformation Change.* Jans Hermans, Biochem., UNC, Chapel Hill. S 1364. 11 a.m.

PATHS OF HEALING & WHOLENESS POT LUCK LUNCH. Let's get to know each other & see how we are doing on our way to prosperity. Toland Hall. Noon.*

REPRODUCTIVE BIOLOGY SEMINAR: *Sexual Differentiation & the Spotted Hyena.* Steve Glickman, Psych. M 1486. Noon.

ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*

ANATOMY SEMINAR: *Gamete & Embryo Micromanipulations as Probes of Mammalian Development.* Jon W. Gordon, Mt. Sinai, New York. HSE 1309. 2 p.m.

COLE HALL CINEMA: *Field of Dreams.* Children under 14 $2; students, seniors & MU members $2.50; general $3. Cole Hall. 6:30 & 8:45 p.m.*

125th EVENT: JUST ABOUT ALL JAZZ

Bruce Forman Trio. First in a series of six jazz concerts. Children welcome for only $3, and grandparents go free if accompanied by grandchildren. $10 general, $48 subscription. UCSF Laurel Heights Aud., 3333 California. Ample parking available. 8 p.m. For tickets & information, call x62035 or x62542.*

EARTHQUAKE RELIEF CONCERT: *Vibrant Music by Living Americans.* Features original works of two UCSF composers—Elaine Bearer, Path., & J.J. Hollingsworth, Physio. Nurs. Benefit for SF earthquake victims. McBean Theatre, Exploratorium, Marina Blvd. & Lyon. 8 p.m. (See page 2 for details.)*

11 Saturday

ANESTHESIA MORBIDITY & MORTALITY CONFERENCE. HSW 301. 8-10 a.m.

SURGERY GRAND ROUNDS: *Neutrophils: Role in Organ Injury Following Hemorrhagic Shock.* Charles Rice, U Wash. Followed by M&M conference. Carr Aud., SFGH. 8:30 a.m.

13 Monday

OTOLARYNGOLOGY GRAND ROUNDS. S 214. 8-10 a.m.

OVEREATERS ANONYMOUS MEETING: *The "H.O.W." Concept.* A more structured approach to over-eating. Speaker & discussion. N 417. Noon. Call Lia, x62542.*

OVEREATERS ANONYMOUS MEETING: Regular OA meeting. N 717. Noon.*

OPEN ENROLLMENT MEETING. Carr Aud. Noon-1:30 p.m. (See story on page 6.)

DERMATOPHARMACY SEMINAR. S 940. 12:10-1 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *Predicting Mortality from Laboratory Tests.* Lewis B. Sheiner, Lab. Med. L 535. 4-4:50 p.m.

November 4-24, 1989

MEMORIAL SERVICE FOR UCSF EMPLOYEES

A memorial service for our colleagues who died in the recent earthquake will be held at 3 p.m. in Cole Hall. (See story on page 1.)

URORADIOLOGY CONFERENCE. Uro. M 460. 5-6 p.m.

HIV SPECTRUM DISEASE PATIENT MEETING: Update on HIV research, treatment & legislation for patients & their friends. Marcus Conant, Derm. Russian Center, 2450 Sutter. 6 p.m. For more information call 661-2613.*

LAUREL HEIGHTS EIR PUBLIC MEETING

Public information meeting discussing environmental impact of UCSF Laurel Heights. UCSF Laurel Heights Bd., 3333 California St. 6 p.m. Letters of support or concern may be sent to David Layne, Millberry Union, 4th fl. West, Box 0286. Another public information meeting will be held Tues., Nov. 28, at 6 p.m. and a public hearing on Mon., Dec. 4, 6-10 p.m., both in UCSF Laurel Heights Aud. For further information, call x63206.*

14 Tuesday

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Differential Diagnosis of Odontogenis Tumors.* Louis S. Hansen, Oral Path. C 701. 8 a.m.

SFGH PEDIATRIC GRAND ROUNDS. Carr Aud., SFGH. 8-10 a.m.

TRANSFUSION RESEARCH FORUM: *Role of Anti-Idiotypic Antibodies & Transfusion.* Marvin Garovoy, Immunogenetics & Transplant Lab. L 535. 8:30 a.m.

OB/GYN GRAND ROUNDS: *Detection of Fetal Brain Damage.* Julian T. Parer, Ob/Gyn. S 1364. 9-10 a.m.

CRANIOFACIAL ANOMALIES CONFERENCE: Presented by the Center for Craniofacial Anomalies. Millberry Conference Center. 9 a.m.-noon.

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

OPEN ENROLLMENT MEETING. HSW 302. Noon-1:30 p.m. (See story on page 6.)

SFGH GI MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *Engineering Protein Specificity.* Jim Wells, Genentech. HSW 301. 4 p.m. Student lunch with speaker: HSE 402, noon. Sign up in Biochem Office.

NEUROLOGY GRAND ROUNDS: *Focal Stimulation of Central Motor Systems with Magnetic Coil.* Roger Cracco, Neuro., SUNY. S 664. 5-6 p.m.

VOLUNTEER ORIENTATION: To acquaint new & potential volunteers with opportunities available in the Medical Center at UCSF. L 191. 6-8 p.m. Call x61196.*

15 Wednesday

PLASTIC SURGERY GRAND ROUNDS: *Tendon Transfers.* James Anthony, Plast. Surg. Toland Hall. 7 a.m.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call coordinator Barbara Blakely, x61662.

DERMATOLOGY CONFERENCE: *Advances in Dermatology.* Neil Swanson, Surg., U Mich. HSW 301. 8-9 a.m.

ENDOCRINE GRAND ROUNDS: *Recent Advances in Quantitative Bone Mineral Analysis.* Harry K. Genant, Skel. Radio., Med. & Orth. Surg. M 1486. 8:30 a.m.

BROWN BAG LECTURE SERIES: *How NOT to Get Ripped Off During the Holidays.* Chris Bjorkland, "Consumer File 81", KGO Radio. HSW 300. Noon-1 p.m. Call x64394.*

BAY AREA WOMEN WRITERS SERIES: Jean Shinoda Bolen reads from her works *The Tao of Psychology, Goddesses in Everywoman* and *Gods in Everyman.* Sponsored by UCSF Women's Resource Center. Cole Hall. Noon.*

ANATOMY SEMINAR: *Gene Activation & Transcription in a Soluble System from Yeast.* Roger Kornberg, Cell Bio., Stanford. S 1364. Noon.

OPEN ENROLLMENT MEETING. VAMC Bldg. 203 2-A-47. Noon-1:30 p.m. (See story on page 6.)

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

PSYCHIATRY GRAND ROUNDS: *Multiple Personality Disorder: Assessment & Treatment—Part 2.* Seymour Boorstein, Psychr.; Susan Detrick & Douglas Detrick, both Psychr., Stanford. LPPI Aud. 1-2 p.m.

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

JOINT UCSF/UCB BIOENGINEERING SEMINAR: *The Extra-Cellular Vibrating Probe for the Measurement of Trans-Cellular & Trans-Epithelial Ionic Currents.* Richard L. Nuccitelli, Zoo., UC Davis. C 309A. 2-3 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

SFGH GI MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

UROPATHOLOGY CONFERENCE: *Pathology of Testicular Tumors.* Michael Cohen, Path. M 460. 5-6 p.m.

PATHOLOGY GRAND ROUNDS: *In Vitro Characterization of Airway Secretory Cells.* Walt Finkbeiner, Path. & CVRI. HSW 508. 5:30-6:30 p.m.

EARTHQUAKE COUNSELING SESSION: Repeat program. See Wed., Nov. 8 for details. LPPI Aud. 6-7:30 p.m.*

SAN FRANCISCO HISTORY CLASS: *SF from the 18th Century to the Present.* Free weekly classes by historian Charles Fracchia, sponsored by SF Historical Society. Through Dec. 13. Toland Hall. 7:30-9:30 p.m. Call 567-2725 for further information.*

16 Thursday

MEDICINE GRAND ROUNDS: *Updates in Current Management of Pain in Outpatients.* Warren McKay, Med. & Dir., Pain Center. Toland Hall. 8 a.m.

SFGH NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8-9 a.m.

PEDIATRICS GRAND ROUNDS: *Intrapartum Fetal Heart Monitoring—Does It Work?* Julian T. Parer, Ob/Gyn. S 664. 8:30-9:30 a.m.

OPHTHALMOLOGY GRAND ROUNDS: *Accommodative Disorders in Neuro-Ophthalmology.* Jade Schiffman, Letterman Army Med. Center. Preceded by case presentations: *Pediatric Ophthalmology.* S 214. 8:30-10 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H2, SFGH. 9-10 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *Arsine Toxicology: California Manufacturing Problems.* George Alexeef, Dept. Hlth. Serv., Berkeley. M 989. 9-10 a.m.

FAMILY & COMMUNITY MEDICINE/PRIMARY CARE LECTURE SERIES: *Hospice.* Robert Brody, Med. & Fam. Comm. Med. *HIV Testing.* Bernard Lo, Med. A 455. 10-11 a.m.

OPHTHALMIC PLASTIC & RECONSTRUCTIVE SURGERY LECTURES: *Ectropion.* Gary Aguillar, Oph. Eye Clinic Conf. Room., 7th fl. A. 10:30-11:30 a.m.

PEDIATRIC TUMOR BOARD. L 34. 11 a.m.-12:15 p.m.

ORAL BIOLOGY 220 SEMINAR: *Epithelial Cell Transformation.* Dieter Gruenert, Biochem., CVRI & CRI. S 664. Noon-1 p.m.

GERIATRIC GRAND ROUNDS. Herbst Hall, Mount Zion. Noon-1 p.m.

NEURO-ONCOLOGY TUMOR BOARD. L 34. 1:30 p.m.

CLINICAL ONCOLOGY CONFERENCE. M 1296. 2 p.m.

CRI HEMATOLOGY/ONCOLOGY GRAND ROUNDS: *A Novel Method to Eliminate Side Effects of Chemotherapy: Successful Abatement of Bone Marrow Toxicity of Methotrexate.* Kenneth Matsumura, FACA, Dir. ALIN Foundation. M 1296. 3 p.m.

OPHTHALMOLOGY/PROCTOR RESEARCH SEMINAR: *Immunopathogenesis in Chlamydial Infection.* Michael Cerrone, Chlamydia Lab. S 318. 3 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

ORTHOPEDIC SURGERY STAFF CONFERENCE. A 630. 4-5 p.m.

PRIMARY CARE GRAND ROUNDS: *Practical Management of Type II Diabetes.* John Karam, Med., MRU & Clin. Endo. A 455. 4:30 p.m.

ADAMS LECTURE

Cranial-Orbital Resection & Reconstruction. John A. Jane, Med. & Neurosurg. U Virg. John E. Adams Lecture. HSW 302. 5-6 p.m.

RADIATION ONCOLOGY GRAND ROUNDS: *Five-Year Minimum Follow-Up of Lung Cancer: Multivariate Analysis.* Richard Redalia, Rad. Onc. L 34. 5 p.m.

OPEN ENROLLMENT MEETING. 301 HSW. 5:15-6:30 p.m. (See story on page 6.)

RADIOLOGY GRAND ROUNDS: Resident vs. Fellow Chest Imaging Panel. Gordon Gamsu & W. Richard Webb, Radiol. HSW 303. 5:15-6:15 p.m.

COLE HALL CINEMA: *When Harry Met Sally.* Children under 14 $2; UCSF employees (today only), students, seniors & MU members $2.50; general $3. Cole Hall. 5:45 & 7:45 p.m.*

ALCOHOLICS ANONYMOUS MEETING. All are invited. LPPI A 222. 6 p.m.*

PLASTIC SURGERY LECTURE/DINNER MEETING: *Infected Median Sternotomy.* Richard Rand, Plast. Surg., SFGH. Faculty/Alumni House. Dinner 6 p.m. Lecture 7 p.m. For reservations call x63061.

COMMUNITY HEALTH TALK: *Baldness: Understanding Hair Loss & What Can Be Done.* Harry L. Roth, Derm. HSW 300. 7-8:30 p.m. Free parking avialable.*

17 Friday

SFGH MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H4, SFGH. 7-7:30 a.m.

SFGH NUCLEAR MEDICINE/RADIOLOGY CONFERENCE. Rm. 1X58, SFGH. 7:45-9 a.m.

CHILD & ADOLESCENT PSYCHIATRY CONFERENCE: *Multi-Modality Therapy with Adolescents.* William Ayres, Child & Adol. Psychr. LPPI Aud. 10:10-11:30 a.m.

PHARMACEUTICAL CHEMISTRY 221 SEMINAR: *Coming to Grips with Hydrophobic Interactions. Illustrated by Two New Structures.* David S. Eisenberg, Mol. Bio. & Chem., UCLA. S 1364. 11 a.m.

HEALING YOUR FINANCES: *Abundance & Simplicity.* Leonard Orr, writer, therapist, creator of Rebirthing. A series of seminars sponsored by Paths of Healing & Wholeness. Toland Hall. Noon.*

REPRODUCTIVE BIOLOGY SEMINAR. M 1486. Noon.

ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*

FIRST WARE LECTURE

DENTAL DEAN'S SEMINAR: *The Future of Oral & Maxillofacial Surgery in America.* Charles A. McCallum, Surg. & Oral & Max. Surg., U Alabama. First annual William Ware Lecture. C 701. 12:30-1:45 p.m.*

COLE HALL CINEMA: *When Harry Met Sally.* Children under 14 $2; students, seniors & MU members $2.50; general $3. Cole Hall. 6:30 & 8:30 p.m.*

18 Saturday

ANESTHESIA MORBIDITY & MORTALITY CONFERENCE. HSW 301. 8-10 a.m.

ORTHOPEDIC GRAND ROUNDS. Carr Aud., SFGH. 8-9 a.m.

SURGERY GRAND ROUNDS: *Zollinger-Ellison Syndrome: Redefining the Role of Surgery.* Haile Debas, Surg. Followed by M&M conference. Toland Hall. 8:30 a.m.

LOW VISION FORUM

Louis Marracci, planner & organizer for Telephone Pioneers of America, talks about this national volunteer organization & the help it offers to those with low vision. A series of forums sponsored by Ophthalmology held on the first and third Saturdays of each month. Call Frances Neer at 626-5313 for more information. Clinical Eye Research Bldg., 374 Parnassus. 11 a.m.-1 p.m.*

WILDERBURBANITES BOOGIE. Sponsored by EMPACT! $5 for UCSF students, $10 general. Fort Mason Firehouse. 8 p.m.*

20 Monday

OTOLARYNGOLOGY GRAND ROUNDS: *New Concepts in the Management of Allergic Rhinitis.* Peter S. Creticos, Med., Johns Hopkins. S 214. 8-10 a.m.

OVEREATERS ANONYMOUS MEETING: *The "H.O.W." Concept.* A more structured approach to over-eating. Speaker & discussion. N 417. Noon. Call Lia, x62542.*

OVEREATERS ANONYMOUS MEETING: Regular OA meeting. N 717. Noon.*

DERMATOPHARMACY SEMINAR: *Localization of Lipid Microdomains & Thermal Phenomena in Stratum Corneum & Isolated Membrane Complexes.* S. Jerry Rehfeld, Derm., VAMC. S 940. 12:10-1 p.m.

LABORATORY MEDICINE GRAND ROUNDS. L 535. 4-4:50 p.m.

SEP RECEPTION

The Science & Health Education Partnership holds its annual reception. MU lounges. 4:15 p.m. (See story on page 2.)

UROLOGY/ONCOLOGY CONFERENCE: *Integrated Therapy for Renal Carcinoma.* Peter Carroll & Perinchery Narayan, both Uro. M 1296. 4:30-6 p.m.

21 Tuesday

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Management of Soft Tissue Injuries to the Head & Neck.* Stephen J. Mathes, Plast. Surg. C 701. 8 a.m.

SFGH PEDIATRIC GRAND ROUNDS. Carr Aud., SFGH. 8-10 a.m.

TRANSFUSION RESEARCH FORUM: *Review of HBV Meeting (Cold Spring Harbor, 9/25-28/89).* Ben Yen & Paul Ulrich, Path. & Trans. Res. Prog. L 535. 8:30 a.m.

OB/GYN GRAND ROUNDS: *The Pap Smear Revisited: New Developments in Cervical Cytology & the Management of CIN.* Michael S. Policar, Ob/Gyn, SFGH. S 1364. 9-10 a.m.

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

OPEN ENROLLMENT MEETING. HSW 302. Noon-1:30 p.m. (See story on page 6.)

SFGH GI MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

NEUROLOGY GRAND ROUNDS: *Anticonvulsant Therapy: Fits & Tidbits.* Kenneth Laxer, Neuro. S 664. 5-6 p.m.

OUTDOORS UNLIMITED SLIDE PRESENTATION: *Medicine in the Andes.* Presented by the Cordillera Project, a 19-person UCSF student medical educational development effort. HSW 300. 7:30 p.m.*

22 Wednesday

PLASTIC SURGERY GRAND ROUNDS. D&C Conference. Toland Hall. 7-8 a.m.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call coordinator Barbara Blakely, x61662.

BROWN BAG LECTURE SERIES: *Career Strategies for the 1990s.* Sharon Gadberry, Transitions Management Group, SF. HSW 300. Noon-1 p.m. Call x64394.*

PARNASSUS AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

HEAD & NECK TUMOR CONFERENCE. A 723. 1 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

SFGH GI MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

UROLOGIC PHYSIOPATHOLOGY CONFERENCE: *Renal Function with Obstruction.* Laurence Baskin, Uro. M 460. 5-6 p.m.

Benefits/Personnel

Richness Through Diversity

"This is history-making. It couldn't take place on any other UC campus. For that matter on any other campus in the state system." That's what Chancellor Krevans had to say at a reception to welcome a new campus organization: Council of Minority Organizations, made up of the heads of four employee groups—Latin American Campus Association (LACA), the Black Caucus, Asian-Pacific American Systemwide Alliance (APASA), and United Filipinos.

The council began very simply. A Mexican, a Black and an Asian were chatting away in one of our campus halls. They all realized very quickly that they shared similar problems, similar campus goals. They decided they'd like to get together again. It soon became clear that a single federation was needed. Their goal: "Come let us reason together and project one single, dignified voice for progress."

A diverse receiving line: (Left to right) Tony Mendoza, United Filipinos; Bob Obana, APASA; Fred Logan, Black Caucus; Moises Mendoza, LACA.

Hire a Retiree

If you call Faricita Wyatt, the coordinator of the Retirees Employment Program, she'll provide you with a list of retirees available for employment.

"These retirees are eager to take on full-time, part-time, temporary or on-call assignments," she says. There are dozens of specialties listed—researchers, bookkeepers, managers, secretaries, nurses, receptionists, teachers, counselors, clerks, analysts—even a psychologist.

You can reach Faracita at x62715 between 10:30 a.m. and 3:30 p.m. on Tuesdays, Wednesdays and Thursdays.

How Are the Funds Performing?

For those invested in the 403(b) Plan and the After-tax Plan, here are the latest unit values and monthly factors (as of September 30). If you have questions, please call x69256.

	Monthly Factor	Current Rate
Savings	.0066	7.98%
Money Market	.0068	8.33%
GIC	.0071	8.69%

	Unit Value	1-Month Change	12-Month Change
Bond	$37.86	0.2%	16.32%
Equity	$63.49	0.0%	25.46%

Earthquake Preparedness: EH&S Will Help

Being prepared, says the memo from our Office of Environmental Health & Safety, is the key to surviving an earthquake.

One of the most important aspects of earthquake preparedness is education. Everyone should be aware of the potential hazards and take measures to minimize the dangers and damage.

EH&S will assist your department in identifying hazards and providing information on hazard abatement. Call x66780.

They also have audio/visual programs on earthquake preparedness—call x63034.

They also offer some basic guidelines for safety and survival:

Before an Earthquake

Even during moderate earthquakes, injuries occur from falling or sliding equipment and furniture. Here on campus this could be bookcases, file cabinets, storage cabinets, machinery, bottles or other containers, gas tanks, light fixtures and overhead equipment. Some relatively simple measures can be taken to reduce the risks:

- Keep a flashlight and extra batteries on hand.
- Items over 42 inches high should be secured to a wall.
- Securely attach light fixtures and overhead equipment to beams and columns.
- Place restraints on all shelves containing chemicals. Install lips or use elastic cord or wires along the front edges of shelves. Keep sliding doors on cabinets closed.
- Put latches on cabinet doors.
- Store heavy or large items on bottom shelves.
- Lock, block or tie down heavy equipment that is on wheels.
- Keep corridors and entrances clear of obstacles.
- Conduct periodic departmental inspections to identify potential hazards. Contact EH&S for assistance, x66780.

During an earthquake

- If indoors, take cover under a desk, table or bench, in doorways, halls or against inside walls. Stay away from windows, mirrors, skylights, glass and furniture that may fall over. Do not run for exits, do not use elevators and stay inside to avoid being hit by falling debris or falling electrical wires.
- If outdoors, get away from high buildings, walls, power poles and objects that could fall. Do not run through streets or alongside buildings. If possible, move to an open area.
- If in a car, stop in the safest place available, preferably an open area away from buildings or other structures. Stay inside your car.

After an earthquake

- Be aware that aftershocks could cause additional damage.
- Do not smoke, use matches or other open flame devices.
- Check all utilities. If damage has occurred, report the exact location and nature to Physical Plant, x62021.
- Do not re-enter building until repair is made and you are advised re-entry is safe.

The University has adopted a policy on seismic safety, issued in May 1988. The goal of the policy is to provide an acceptable level of life safety for students, employees and the public who occupy University buildings. In addition, UCSF has developed an Emergency Operations Plan, which contains the University's plans to maintain water, power, gas and sanitation services should a large-scale disaster occur. The manual is available through the Vice Chancellor's Office—Business and Fiscal Services, x62496.

Exercise Your Benefits Options Now

You have until 5 p.m. on Thursday, November 30, to take action on your Open Enrollment options. This means if you want to make changes in your medical, dental, optical, legal, Medplus or Depcare enrollment status, your forms must be received by that time in Campus Accounting, Box 0812, or the Benefits Office, Box 0918. See your department's benefits rep for forms and further information.

A good reference for Open Enrollment opportunities and plan changes for 1990 is the literature that accompanied your Personal Benefits Statement. This should have arrived in your home mail (for eligible employees). It contains a number of fairly easy-to-read charts containing all the details.

If you don't like to read, you can attend one of the Open Enrollment information meetings at the times listed below.

Otherwise, here's a start:

- **Health Insurance:** The medical plans offered at UCSF this year include four HMOs—Heals, Healthnet, Kaiser and TakeCare (new this year)—and two fee-for-service plans through Prudential. The employer contribution continues to cover the full monthly premium cost for each of the plans except the Prudential High Option Plan. There are some changes in employee costs for Prudential High Option. Also, for both Prudential plans, there will be a one-year pre-existing condition exclusion beginning in 1990, but it only applies to employees who become eligible for the plans after December 31, 1989.

The dental plan carriers remain the same: Delta Dental, a fee-for-service plan; and PMI, in which services must be obtained from providers who are affiliated with PMI. Delta Dental has one change: To conform with new federal recommendations on frequency of x-rays, full-mouth x-rays are covered not more than once every five years and bitewings for persons over 18 not more than once every 12 months.

There is no change in the optical coverage provided through Vision Service Plan.

- **Legal Insurance:** For the first time, the legal plan offered through Midwest is available as an Open Enrollment action. Any employee enrolled in the plan may add dependents not presently covered; or eligible employees who are not currently covered may enroll for the first time.
- **Tax Savings Plans—Medplus and Depcare:** These programs permit eligible employees to establish tax-free funds to pay for certain medical and/or dependent care expenses by signing a salary reduction agreement. During Open Enrollment, employees currently participating in the plans may change or cancel their agreement for 1990; if no action is taken, the 1989 agreement will continue for 1990. Eligible employees who are not participants may enroll in the plans for 1990.

Open Enrollment Information Meetings

The remaining Open Enrollment meeting are scheduled as follows:

- Wednesday, November 8: CED Hartsook Room, noon to 1:30 p.m.
- Thursday, November 9: Oyster Point, two morning sessions, times to be announced.
- Monday, November 13: SFGH Pathology Auditorium, noon to 1:30 p.m.
- Tuesday, November 14: HSW 302, noon to 1:30 p.m.
- Wednesday, November 15: VAMC, Building 203, 2-A-47, noon to 1:30 p.m.
- Thursday, November 16: HSW 301, 5:15 to 6:30 p.m.
- Tuesday, November 21: HSW 302, noon to 1:30 p.m.

Okay to Speak Native Language in Workplace

Per the Chancellor's memo dated October 9: Effective immediately, any existing policy, practice or custom on campus, whether formal or informal, requiring employees to speak to their co-workers in English shall be terminated.

The University and UCSF policies are the same as the Federal EEOC guidelines, which state that prohibiting employees from speaking their native language in the workplace constitutes discrimination. Employees are free to speak their native languages to their co-workers and friends if they wish.

Employees have the right to request review of their personnel file in order to have written warnings, counselling memos or other documentation related to English-only rules removed.

Questions or complaints should be directed to the Affirmative Action Office and/or the appropriate labor union if the employee is covered by a collective bargaining agreement. Also, any employee may contact Gary Legum at the EEOC at (415) 995-5061 for assistance.

Commute Guide Available

Still pondering the best way to get to and from San Francisco as a result of the earthquake? Better grab hold of Pac Bell's new SMART Commute Guide, which explains all the new routes and schedules for BART, buses, trains and regional ferries. If you haven't yet received one through the campus mail, stop by the Transportation Office, G Level of Millberry Union, Room 18.

EMPACT!

Nurses & Nordstrom Present Holiday Fashions

Quick, get out your calendar and mark Monday, November 20. That's the date of the free Holiday Fashion Seminar sponsored by EMPACT! and the School of Nursing and presented by Nordstrom.

At 9 a.m. and again at noon in the MU residence lounge, nurses from the Department of Nursing will be modeling holiday fashions. There also will be makeovers and tips on accessorizing, plus a drawing for raffle prizes.

What else:

- **Ice Capades 50th Anniversary Show** at the SF Civic Auditorium. Discount tickets for Sunday, November 26, 2 p.m. performance. $11 (regularly $13). Pick up your tickets at the MU Control Desk.
- **Thanksgiving candy sale: Ethel M & Sees,** Monday, Tuesday and Wednesday, November 20 through 22, 11 a.m. to 2 p.m. in the Medical Sciences lobby. (Also pre-order for Christmas, to pick up December 14 or 15).
- **Holiday gift wrap and accessories sale**, same dates and times as candy sale, above. Or call x66932 for catalog and order form. Order deadlines: November 9 and 30.

- **Nutcracker Suite/A Christmas Carol.** EMPACT! has discount tickets—Christmas Carol on Wednesday, December 6; Nutcracker on Wednesday, December 13. Call x66932 for further information.

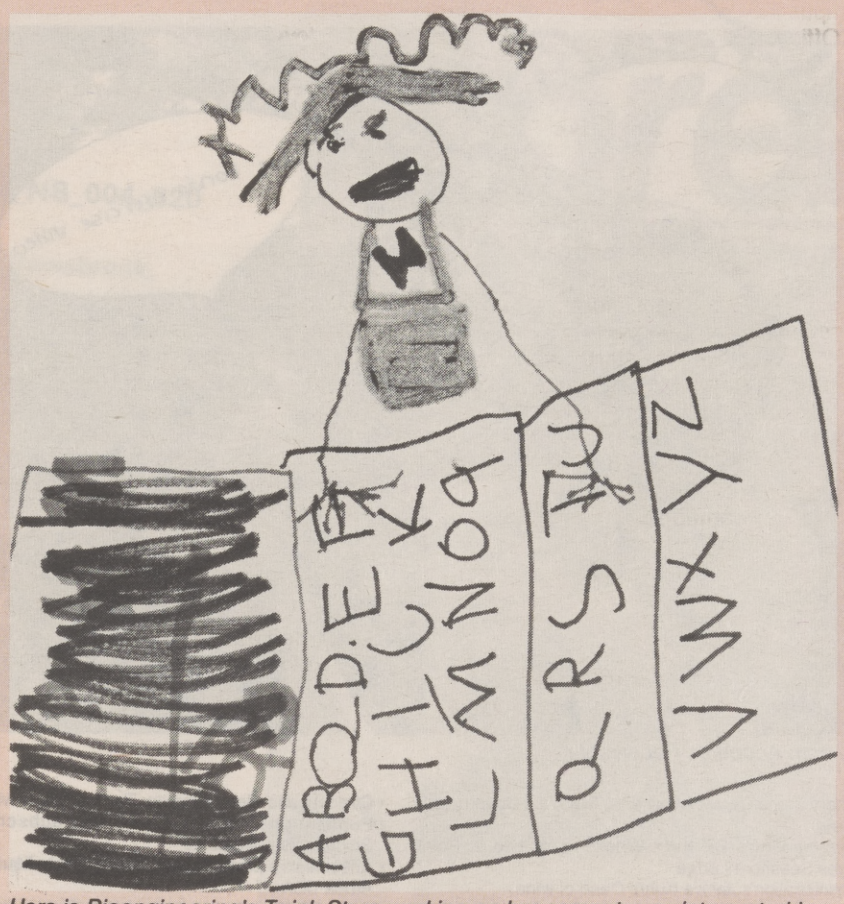
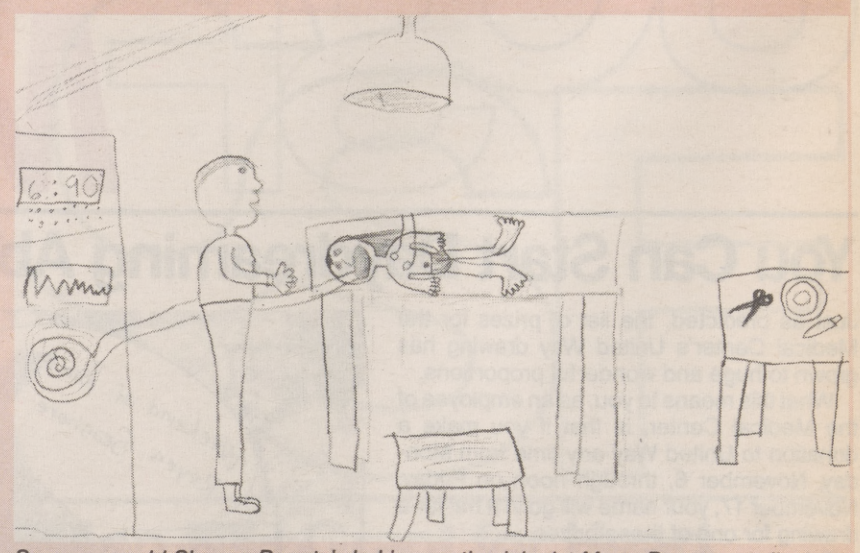
"What My Mom (or Dad) Does at Work"

If you attended the 125th Anniversary celebration, perhaps you experienced the dilemma that there were more things to see and do than you had time to discover. Supposing you made it to the major events, it could be you missed some of the fine details. One gem, for instance, was the exhibit sponsored by the Medical Center called "What Mom or Dad Does at Work," a collection of drawings by staff members' children. In case you missed it, here are a few examples from many delightful submissions. (In case you'd like to see more glimpses of the celebration, turn to page three.)



Here is Bioengineering's Twink Stern working on her computer, as interpreted by her five-year-old daughter Tuong-Vi Vu-Duc.



Seven-year-old Shauna Bogetz' dad is anesthesiologist Marty Bogetz, medical director of the Surgery Center.

How on earth did 10-year-old Mario Silva get this impression of his mother's job? His mom is Sonia Silva, a secretary in the SFGH Department of Surgery.

"My mom is a nurse practitioner," is the title of this piece by nine-year-old Tamika Bryant. Her mom is Judy Sweet, who practices with the General Medicine II Clinic.

"My mom stomps out infection" says 10-year-old Rita Jordan of her mom, Infection Control's Marilyn Jordan.

Might Your Offspring Be Interested in "Careers in Health"?

Judging from the drawings above and dozens of others submitted to the "What Mom or Dad Does at Work" drawing contest, many little ones show quite an interest in and understanding of the healthcare workplace.

But what about your bigger ones? Any interest there? If you think your high school or college-age son or daughter might like to learn about options for healthcare careers, point them in the direction of the "Careers in Health" job fair sponsored by the Medical Center on Wednesday, November 15, from 4:30 to 7:30 p.m. in the Millberry Union gym.

Of course, the fair is not limited to students or youths. Re-entry college students or adults looking for a career change also are encouraged to attend. (Parents also welcome.)

The fields represented will include nursing, pharmacy, dentistry, medicine, radiation therapy, physical therapy, respiratory care, social work, laboratory technology, hospital dietetics and food production and hospital supplies management. Participants also can take tours of departments on request.

Admission is free, but reservations are requested. Call Sandy at x62252.

We Have a Winner (Once Removed)

Do you remember reading that those who signed up to volunteer at the 125th kickoff by a certain date would be entered in a drawing for a trip to Hawaii?

They had the drawing on October 14 and the winner was...volunteer Millie Gilchrist. Millie and her husband Syd are long-time, faithful volunteers at the Medical Center and certainly deserved to win such a prize.

The only problem is that Syd is retired from United Airlines and they can pretty much go wherever they want. This is something like what happened to Marie Rhodes' husband. He's a retired sailor, and he won a cruise in the EMPACT! raffle.

Anyway, when Millie learned she won, she said, "Draw another card, why don't you?"

So now it's Nuclear Medicine's Duffy Price who's going to Hawaii, courtesy of Campus Travel.

You Can Start Daydreaming About the Prize You'll Win

Just as predicted, the list of prizes for the Medical Center's United Way drawing has grown to huge and wonderful proportions.

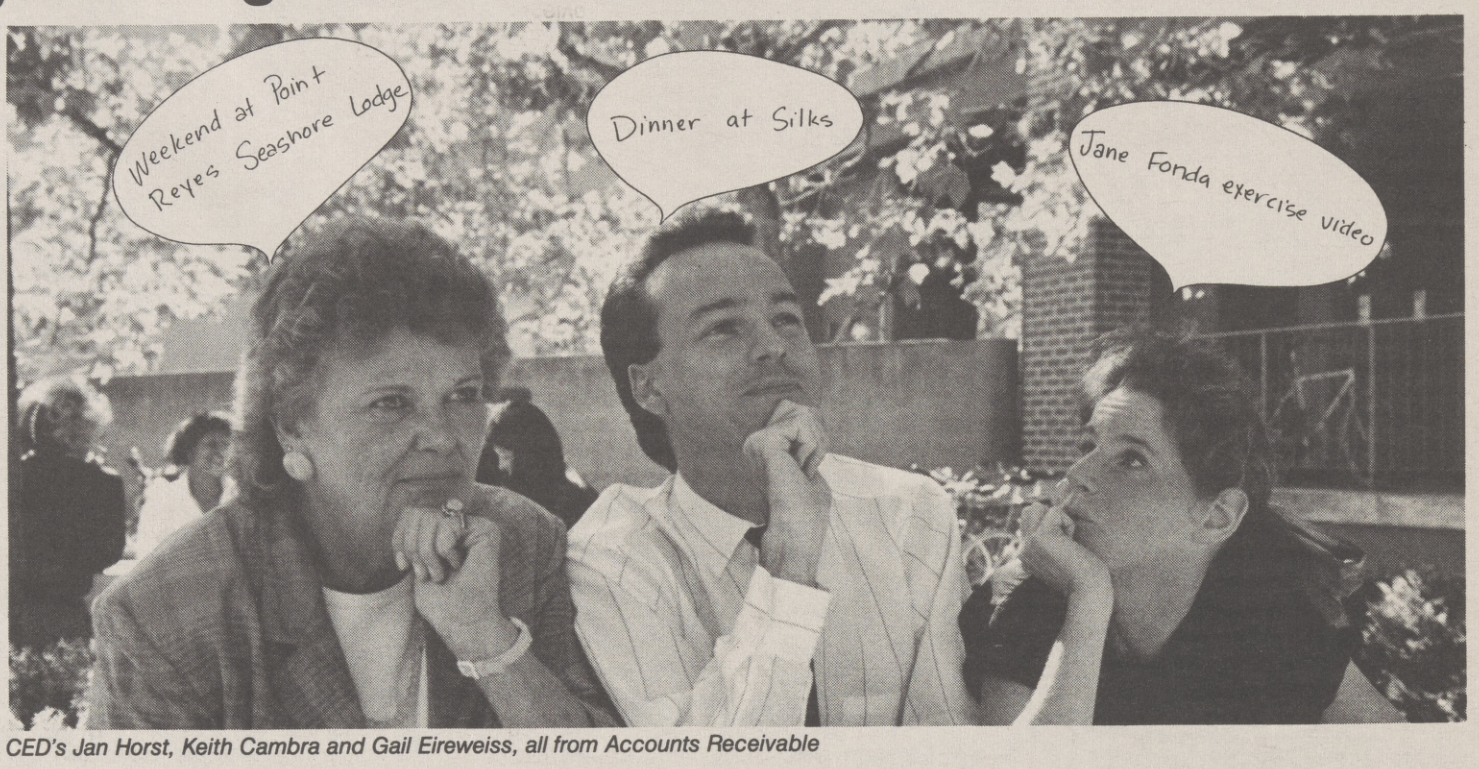
What this means to you, as an employee of the Medical Center, is that if you make a donation to United Way any time from Monday, November 6, through noon on Friday, November 17, your name will go in a hat for a drawing for one of these prizes.

Take note: This year there will be some mini-drawings earlier in the campaign, during the "Agency Fairs" described in the adjacent article. There still will be one big drawing during a wrap-up party at the end of the campaign: Friday, November 17, from 2 to 4 p.m. in the Moffitt Cafe. Everyone welcome.

Also take note: There will be a special drawing at the end of the campaign for donor reps. All Medical Center donor reps whose departments had over 50% participation will be included. Whoever wins will get a catered lunch for all the donor reps in his or her department.

The prizes to date:

- Administration's Karen Akerson: One day of maid service
- Administration's Mary Jane Allison: Macy's gift certificate
- Patient Relations' Susan Alves-Rankin: Bottle of wine from her personal collection
- Administration's Kathy Balestreri: Bagels, cream cheese and gourmet coffee for 20
- Physical Therapy's Kathleen Brown: Tarot card reading or a massage
- Administration's Maggie Bryan: Sunday champagne brunch for two at Lafayette Park Hotel in Lafayette.
- Beartique's Maryanne Caramanica: Beartique gift certificate ($25)
- Clinical nurse specialists: Gift certificate for dinner for two at Il Fornaio
- HISD's James Cunningham: Nordstrom gift certificate ($30)
- 6 PICU's Vicky Dayan: Two bottles of Fetzer wine
- Accounting's Steve Downs: Just Desserts gift certificate ($30)
- Planning & Marketing's Reese Fawley: Two bottles of California wine



CED's Jan Horst, Keith Cambra and Gail Eireweiss, all from Accounts Receivable

- Biomed's Rich Fechter: Microwave repair or VCR tune-up or car tune-up (labor only)
- Sue Flanagan & Maternal-Child Health Nursing Division: One night's stay at the Benbow Inn in Garberville
- Telecommunication's Marty Gustafson: Homemade cheesecake
- Volunteer Services' Leona Hansen-Nealey: Basket of Danish delights plus her cookbook, "Vaer Saa God"
- Bill Harris & Clinic Administration staff: Catered dinner for four to six people in winner's home
- Administration's Jane Hirsch: Nordstrom gift certificate ($50)
- HISD's Liz Hughes: Massage at Millberry Union
- Quality Assurance Program's Kyra Janssen: The Nature Company gift certificate ($10)
- Planning & Marketing's Jackie Jew: "Entertainment '90" discount coupon book (sold by Auxiliary)
- Urinary Stone Center's Gail Kay: Two Wine Country tour tickets
- Administration's Bill Kerr: Weekend for two at Point Reyes Seashore Lodge
- Administration's Jackie Kuhn: Case of wine
- Eleanor Louie & Med/Surg Nursing Division: Gift certificate for dinner for two at Silks Restaurant
- Linda Mann & Critical Care/Surgery Nursing Division: Majestic Cafe gift certificate
- Kathy McCaffrey: Two bottles of wonderful red wine
- Utilization Review's Christine Melanson: Basket of soaps and lotions from Common Scents
- Social Work's Sylvia Olsen: Gift certificate for your family to a performance of "Gepetto's Puppet Theater"
- Admissions' Joanne Pehkonen: Two dozen muffins
- Administration's Patty Perry: Gift certificate for "Waiters on Wheels" restaurant/home service
- Clinical Labs' Betty Pingree: Two bottles of wine
- Publications' Dennis Piper: Gift subscription to *Smithsonian Magazine*
- Anesthesia's Linda Rampil: Two tickets to Marine World/Africa USA
- Budget & Reimbursement's Valerie Rinkle: Jane Fonda exercise video
- Nursing Administration's Helen Ripple: Dinner for two at your choice of SF restaurants
- Administration's Ron Shumacher: Macy's gift certificate
- Administration's Susan Semonoff: Four dozen oatmeal-coconut-butterscotch chip cookies
- News Services' Dawn Finch: Signed *Medsounds* and a photograph of you and a friend eating a banana split from Gelato Classico (all photo props supplied)

Come to the United Way Kickoff Nov. 6

Beginning Monday, November 6, the Medical Center United Way Committee is sponsoring several "Agency Fairs." On four dates during the campaign—November 6, 9, 13, and 16—you're invited to stop by Medical Sciences lobby between 10 a.m. and 2 p.m. and get acquainted with some of the agencies that benefit from United Way Funds.

The grand kickoff will take place during the first hour of Monday's fair—10 to 11 a.m. on November 6. During this time the Medical Center associate directors will be there to greet guests and distribute United Way materials to donor reps. In other words, if you are a donor rep from a Medical Center department, don't forget to go!

Here's what else you get if you go: (1) United Way souvenirs suitable for decorating your office and your clothing; and (2) things to eat and to see, all in keeping with a "country fair" theme.

If you're interested in contributing to earthquake relief via United Way, check page two for further information.

Flu Season Coming—Get Your Shot Now

December is peak flu season, which means November is "Flu Shot Month" at UCSF.

The Employee Health Service will offer the vaccine free through November. Anyone who has extensive contact with patients at risk for complications associated with influenza should have the vaccine.

Groups at increased risk include adults and children with chronic pulmonary, cardiovascular, metabolic and renal diseases, as well as immunosuppressed individuals. Patients over 65 also are considered part of the high-risk group.

Because influenza vaccine contains only non-infectious viruses it cannot cause influenza. Systemic reactions, which may include fever, malaise and muscle aches, occur infrequently following vaccination.

To receive the vaccine—or to discuss whether or not you should—stop by the Employee Health Center on the fourth floor of the ACC (A 440). Hours: Monday, Tuesday, Thursday and Friday, 8 a.m. to noon and 1 to 4 p.m. On Wednesday, 9:30 a.m. to noon and 1 to 4 p.m.

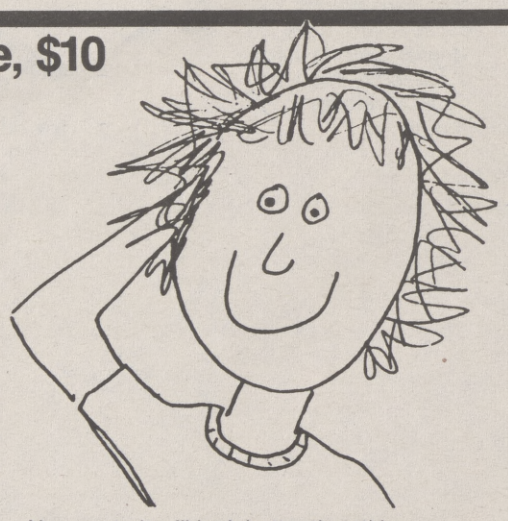
Get Your Portrait Done, $10

At the Auxiliary's one-day art sale on Wednesday, November 15, local artist Shoushan Hart will be doing charcoal portraits for $10 (of which she will donate $5 to the Auxiliary). No reservations; just show up anytime during the sale, 10 a.m. to 4 p.m. in the Medical Sciences lobby.

Among the artwork featured for sale will be "some great buys," promises our reliable Auxiliary spokesperson. The inventory to date includes photographs, paintings, etchings, watercolors and prints. Many of the items have been donated by UCSF staff members who turn out to be artists on the side (or perhaps the reverse). Quite a few pieces also have been donated by local artists who exhibit their work in the Auxiliary's showcases in the Medical Center.

If none of the above interests you, perhaps this will: A local antique jeweler also will have a table at the sale.

P.S. The Auxiliary will be taking donations up to the last minute. Call x64906 if you have something to contribute. All proceeds will go toward the Auxiliary's "Special Projects" in the Medical Center.



Your portrait will look better than this.

Well, Did We Get Our Accreditation?

There are several possible ratings issued by the JCAHO, said Med Center Director Bill Kerr at the summation meeting following the accreditation team's visit to the Medical Center last week.

There is full accreditation without recommendations—which, to his knowledge, no institution has ever received. There is full accreditation with recommendations; conditional accreditation (short-term accreditation, pending correction of problems); and finally, no accreditation at all.

Based on the feedback received from the team, our hope and anticipation is that we will receive the best we realistically can expect: Full accreditation with recommendations.

The final written report won't be issued for another four or five months, however. In fact, part of the survey isn't even complete yet. Generally the clinical and anatomical pathology labs are checked by a single surveyor in advance of the rest of the team. The surveyor was ill on the day he was due, however, so that part is still pending.

How important is the JCAHO accreditation? It's essentially a voluntary process, explained Bill. But from the standpoint that the accreditation has become a standard by which healthcare institutions are judged—as well as criteria for federal and other reimbursements—the importance is nothing short of paramount.

Earthquake Heroes

Here's another chapter to add to the "Earthquake Heroes" book: The day after the earthquake, 71 people showed up at our Blood Donor Center to give blood.

"Many were employees, but we also had a number of people from the surrounding neighborhoods," says the Center's Florence Siegel. She says the staff found the response magnificent, and hopes people also will remember the forthcoming holiday season, traditionally a time of short supply—particularly for platelets.

Appointments to donate blood or platelets may be made by calling x66989.

Melissa Gates at Canessa Park Gallery

Melissa Gates, a nurse on 7 Long who becomes "Roman Gates" the painter during her off hours, is getting her first big break as an artist next month: Her work will be featured at the Canessa Park Gallery at 708 Montgomery Street (near the Transamerica pyramid) through November.

She says she's sent an invitation to the opening reception to many UCSF colleagues, but in case you didn't get one, you're still invited. If you receive this paper on Friday, November 3, then the opening is tonight, 7 to 10 p.m. Otherwise the gallery hours are noon to 4 p.m. Monday, Wednesday and Friday and weekends by appointment.
